

DRIS™ | Disaster Resilience Intelligence Scorecard™

From Preparedness to Resilience: Turning Readiness Into Intelligence.

THE PROBLEM

Traditional preparedness assessments are static, fragmented, and vulnerable to score inflation. They measure activity on paper; not operational capability under pressure. When disaster strikes, the gaps that cause the most harm were often knowable in advance but never surfaced.

Leaders accountable for public safety, continuity, and recovery have no authoritative, real-time system to answer the question that matters most:

"Which gaps are most likely to cause operational failure, financial loss, or mission breakdown if disruption occurs tomorrow?"

THE DRIS™ SOLUTION

DRIS™ is a unified intelligence platform that transforms static preparedness into live operational resilience. It measures capability before a disaster, coordinates response during one, and builds workforce readiness continuously: all within a single connected system.

- Calibrated Resilience Index across weighted assessment areas
- Critical Factor Override: high scores cannot mask fatal gaps
- DRIS IQ™: deterministic intelligence core with AI-assisted insights
- Response Lifeline Intelligence: FEMA Community Lifelines operational hub
- Workforce, Community, and Collaboration environments: unified platform

THE DRIS™ PLATFORM — FOUR CONNECTED ENVIRONMENTS

Intelligence Dashboard™

Executive Decision Support

- Resilience Index (Scorecard)
- Command Center
- FEMA Lifeline Tracking (RLI)
- Incident & Resource Management
- Workforce Intelligence
- DRIS University™
- DRIS IQ™ Insights

Workforce Portal™

Develop. Deploy. Recover. Lead.

- Capability Readiness Passport™
- Missions & Deployment Tracking
- Mentorship & Learning Paths
- Personal Readiness Score
- Team Collaboration

Community Hub™

Prepare. Connect. Recover.

- Live Disaster Alerts
- Storm Tracking & Hazard Feeds
- Recovery Resource Directory
- Community Preparedness Tools
- Benefit & Funding Updates

Collaboration™

Connect. Coordinate. Respond. Recover.

- DRIS Chat™ & DRIS Mail™
- Incident Rooms™
- Mission Threads™
- Secure File Sharing
- Outlook, Teams, Gmail, Zoom

THE DRIS™ RESILIENCE INDEX

TIER	CLASSIFICATION	SCORE RANGE	STATUS
1	Resilient	85–100%	Mentor candidate
2	Developing	70–84%	Improving
3	Needs Support	50–69%	Priority gaps
4	Emerging	< 50%	Foundational
—	Baseline: Unassessed	0%	Not yet scored

WHO DRIS™ SERVES

- *State & Governor Heads*: pre-disaster accountability & resource prioritization
- *Emergency Management Agencies*: state / county dashboards /gap targeting
- *Development Finance*: World Bank, IDB, USAID investment intelligence
- *National Security & Defense*: NATO, CISA, partner nation resilience scoring
- *Critical Infrastructure & Enterprise*: operational continuity & risk classification
- *Universities & Research Institutions*: campus resilience /academic integration
- *International Jurisdictions*: 114 country profiles, English, French, Spanish

"DRIS does not just measure preparedness; it tells you the truth about it."
